

# Footcare & Wellness Newsletter

*Take care of your feet & they will take care of you!*

FALL/WINTER 2024

## PROMOTING FOOT HEALTH FOR NATIONAL DIABETES AWARENESS MONTH

November, presents an excellent opportunity to emphasize the importance of foot health in diabetes management. The connection between diabetes & foot complications underscores the need for **proactive foot care checks & awareness**. Schedule your regular diabetic foot checks with us & let our team of podiatrist help with consistent steps to prioritize you or your families diabetic foot health & reduce complications & increase overall well being in diabetic footcare.

## FALL & WINTER FOOT CARE IS AS IMPORTANT AS QUALITY FOOTWEAR

Say 'NO' to Nail Fungus this Winter. We have great packages & offerings! [Footdoctorscolorado.com](http://Footdoctorscolorado.com).

Changing out those open toe shoes from the hot summer months to our warm booties can leave our feet susceptible to painful corns, callouses & pesky fungal infections. This dark & warm place is ideal for bacteria to grow. Keeping your feet clean & dry is essential in winter months.

*Come see us as our shelves are stocked to Care for Your Feet this Winter*

## OFFERING OUR NEW TOLCYLEN, MARKET-LEADING, CLINICALLY PROVEN FORMULATIONS IN ALL 6 OF OUR OFFICES!

- **Therapeutic Foot Soak** – A powerful adjunct for active nail and skin conditions
- **Micro-Cleansing Foot Soak** – A long term cleansing, protection and maintenance
- **Transdermal CBG/CBD Cream** – Novel cannabinoid complex with patented transdermal delivery

In addition to these products, our team may offer other products to help treat nail fungus & athlete's foot. Powders, creams, sprays or lotions that are specifically formulated or prescription topicals & **in severe case an oral anti-fungal medication.**
